

## 2018 Board of Director's Election

Position: Webmaster

Candidate: Melinda Hansen

Qualifications: Current Webmaster. Had website completely redone so that it became an interactive site on October, 15, 2017. This allows the club to process membership applications electronically online, including the payment process. This has reduced clerical errors from the amount of manual entries in the previous system. The new website has greatly improved the club's online presence. Also, moved the club's database system from a manual Excel file sheet to a SQL database. Automated the renewal reminder system.

Previously worked as system administrator over several computer systems for several years. Worked as private consultant on computer systems. Currently retired.
